

Publishing

We develop and publish a wide range of high quality content in the fields of IT, e-business, project management and business management. Much of the content is bespoke and is produced in close association with our clients to meet their specific needs. All of it is delivered to exacting standards.

Our publishing activities fall under the following categories:

-

Textbooks

-

Magazines

-

Mini-books

-

Guides and white papers

-

E-newsletters

-

Case studies

-

Online resources

-

Editorial services
